

COMING EVENTS

OCTOBER

23 THURSDAY

Lectures

Centre for Medieval Studies. "Twelfth Century Spirituality and the Late Middle Ages". Prof. Giles Constable, Harvard University. Room 158, Lash Miller Building. 2 p.m.

School of Graduate Studies and Department of Classical Studies. "Nemean Seven and Pindar's Concept of Fluctuation". Prof. G. M. Kirkwood, Department of Classics, Cornell University. Room 24, Trinity College. 4.30 p.m.

School of Business - Canadian Imperial Bank of Commerce annual lectures. "Manpower Planning - Challenge to Managers". Prof. Eli Ginzberg, Graduate School of Business, Columbia University, and chairman, National Manpower Advisory Committee. Convocation Hall. 8.15 p.m.

Erindale Series: The Moon and Meteorites. "Identifying Giant Craters Due to Old Meteorite Falls in Canada". Dr. I. Halliday, Dominion Observatory, Ottawa. Room 292, Erindale College. 8.15 p.m.

Seminars

School of Graduate Studies and Institute for Aerospace Studies. "Subjective Aspects of Sound". R. G. Barden, Chairman, Department of Mechanical Engineering, Monash University, Australia. Main Lecture Room, Institute for Aerospace Studies. 4 p.m.

Computer Systems Research Group. "General Computer Systems for Libraries - Possible or Desirable?". Prof. N. S. M. Cox, Computing Laboratory, University of Newcastle Upon Tyne. Room 118, McLennan Physical Laboratories. 4 p.m.

School of Graduate Studies and Department of Physics. "Birth of Clear Air Turbulence". Prof. David Atlas, Department of Physics, University of Chicago. Room 102, McLennan Physical Laboratories. 4.10 p.m.

School of Graduate Studies and Department of Mechanical Engineering. "Transport and Collection of Aerosols". Prof. S. L. Soo, Department of Mechanical and Industrial Engineering, University of Illinois. Room 254, Mechanical Building. 4.10 p.m.

Meeting

University Arts Women's Club - first general meeting and tea. Speaker: The Rev. E. S. Buñi, Rector of St. Thomas Church, Parish Hall, 383 Huron Street (one-half block south of Bloor Street). 1.45 for 2 p.m.

Music

Faculty of Music. Thursday Afternoon Series. Women's Musical Club. Guarneri Quartet. Eaton Auditorium. 2 p.m. Free to Faculty of Music ATL card holders, other students 75¢.

Collectors' Night

Experts identify your treasures. Crafts, china, glass, silver, metal prints and drawings. No furniture. \$1 per item. 7 to 10 p.m. ROM. Refreshments.

24 FRIDAY

Lecture

School of Graduate Studies and Department of History. "Serfdom as the Basic Starting Point of Social Movement in Europe". Prof. Karl Bosl, University of Munich. Upper Library, Massey College. 2 p.m.

Seminars

School of Graduate Studies and Centre for Medieval Studies. "The Popularity of 12th Century Spiritual Writers in the Late Middle Ages". Prof. Giles Constable. Room 1069, Sidney Smith Hall. 4 p.m.

School of Graduate Studies and Department of Classical Studies. "Cologne Papyrus 2021 and Alcaeus's Use of Myth". Prof. G. M. Kirkwood. Room 24, Trinity College. 4.30 p.m.

Discussion

Free University of Toronto and Advisory Bureau. Sensitivity Training for students, faculty and staff. Weekends through the fall. Weekend Oct. 24-26. Application forms at S.A.C. or Advisory Bureau, 631 Spadina Ave. \$8 inclusive.

Supper

Faculty Club Buffet Supper. 5.30 to 8 p.m.

Music

Faculty of Music - University of Toronto Symphony Orchestra. Conductor, Victor Feldbrill. MacMillan Theatre, Edward Johnson Building. 8.30 p.m. Admission free. Tickets available before performance.

25 SATURDAY

Seminar

Centre for Medieval Studies. "Islamic Influences on the Latin Middle Ages". Music Room, Hart House. 2 to 5 p.m. A regional seminar with papers by Prof. Andrew M. Watson, Department of Political Economy; Prof. W. B. Dunphy, Department of Philosophy; and Prof. Ernest J. Grube, Department of History and Archaeology, Columbia University.

Music

Concert of Cantatas and Motets presented by the Toronto Chamber Society. Concert Hall, Edward Johnson Building. 8.30 p.m. Tickets \$3.50 single; \$3 for two or more. Phone 536-5019 or write to the Society at 413 Dovercourt Road, Toronto 145.

26 SUNDAY

Concert

University of Toronto Symphony Orchestra. Victor Feldbrill, conductor. Scarborough College. 3.45 p.m. Admission free.

27 MONDAY

Seminar

School of Graduate Studies and Department of Computer Science. "On the Abstract Kernel of Godel's Incompleteness Theorem". Dr. Laszlo Kalmar, Department of Mathematics and Computer Science, Jozsef Attila University, Szeged, Hungary. Room 118, McLennan Physical Laboratories. 1 p.m.

Colloquium

School of Graduate Studies and Department of Computer Science. "Is ALGOL an Algorithmic Language Indeed?" Dr. Laszlo Kalmar. Room 203, McLennan Physical Laboratories. 3 p.m.

28 TUESDAY

Lectures

Institute for the History and Philosophy of Sciences and Technology. "Conflict of Concepts in Early Nutrition Studies". Prof. Aaron J. Ihde, Department of History of Science, University of Wisconsin. Room 102, McLennan Physical Laboratories. 1.10 p.m.

School of Graduate Studies and Department of Astronomy. "Structure and Stability of Rotating Stars". Dr. J. P. Ostriker, Princeton University. David Dunlap Observatory. 4 p.m.

(See page 2, col. 1)

Committee is being formed to organize discussions of report on governance

The University is in the process of forming a Programming Committee which will organize discussion and debate on the report published last week by the Commission on the Government of the University of Toronto. President Claude Bissell stated early this week. It is hoped to quickly determine areas of consensus and those in which there is significant divergence of opinion.

In the meantime, the President has urged that discussion commence immediately in departments, faculties and colleges; by student, faculty and other representative bodies—by any interested groups or individuals within the University community. Mid-December is the target date for initial reports on reaction to the CUG proposals.

"Throughout the world," said the

OCTOBER 30 DEADLINE

University of Toronto Bulletin is published by Department of Information, Room 225, Simcoe Hall. All material for the next issue should be in the hands of the editor, Mrs. Winogene Ferguson (928-2102) by noon on the 30th of October.

President, "there is a growing concern about how a university governs itself. Sometimes this concern grows out of the experience of disruptions, as it has in a number of major universities in the United States and in Europe. These universities were propelled into action by a series of violent confrontations. But all universities have felt the necessity for

(See page 3, col. 3)

The Governing Council should be first item on agenda, CUG says

The Commission on the Government of the University of Toronto, in its report released last Thursday, called the achievement of a governing Council as recommended, "an essential step towards the realization of a new university community which we have envisioned."

The Commission expressed the hope that "debate about such a Council, and coalescence of a consensus within this University about its nature and structure, will take precedence in the discussions that follow on the recommendations".

"With the establishment of a unicameral Governing Council representative of all estates, the University may proceed in effective fashion to determine its will with regard to the other major questions that we have dealt with in this report",

the Commission said in its conclusion. "The end result, we fervently hope, will be the attainment of a higher learning environment marked by a commitment to Community in University Government."

Entire U of T community receives report of CUG

Sufficient copies of the CUG report were made available in every faculty, college and school last Thursday morning to provide one for every staff member and student in the entire University Community. Additional copies may now be obtained from the Office of the Registrar, Room 106, Simcoe Hall, by calling in person for one.

STAFF NOTES

Administration

The President announces that Dr. JOHN HAMILTON, Vice-President Health Sciences, has been relieved of his ordinary duties during the next two months in order to devote himself to preparation of a ten year plan for development of the Health Sciences and educational facilities in the teaching hospitals affiliated with the University of Toronto. Various studies related to this project have been under way for the past three years, and with the recent announcement by the Government of Ontario of the capital program for financing health sciences education, a complete and final plan must now be produced.

Arts and Science

PROF. C. B. MACPHERSON took part in a symposium on "Frontier Issues in Development Theory" at Syracuse University, April 24-26, where he presented a paper "Reflections on Sources of Development Theory". On May 3 and 4 he chaired the Machiavelli Quincentenary Conference of the Toronto Society for Social and Political Thought, at York University. On May 15 and 16 he took part in a conference on "Technology and the Polity" at the Harvard University Program on Technology and Society.

PROF. GERALD K. HELLEINER delivered a lecture on "The Emerging Nations of Africa", May 20, to the Canadian Land Forces Command and Staff College, Kingston, Ont. He attended a conference on "Bretton Woods: Twenty-Five Years After", June 2-3, and served as a discussant in the session on "The Future of International

Monetary Arrangements" at Queen's University. For the third year Prof. Helleiner served as External Examiner in Economics at the University of Ibadan in Nigeria, June 9-16. He also attended the conference of the Institute of Development Studies at the University of Sussex on "Crisis in Planning" June 29 to July 4.

PROF. E. P. NEUFELD read a paper, "Canada: An Assessment of the Economic Scene", before the conference, "Canada Now and In the 1970's", organized by the Independent Trade Missions Ltd., in London, England, June 1.

PROF. PAUL FOX presented a joint paper with DR. IRVINE SCHIFFER, PROF. LIONEL RUBINOFF, and JOSEPH STEINER, entitled "The Unconscious of the Voting Public", to the annual meeting of the Canadian Political Science Association at York University June 5.

DR. DANIEL E. BERLYNE chaired a session on "Motivation and Activation in Learning" at a conference, with international participation, on "Human Learning", July 15, organized by the Czechoslovak Academy of Sciences, Prague. He also gave a paper on "Motivational Problems". Dr. Berlyne acted as discussant in a symposium on "Dimension of Arousal" at the XIX International Congress of Psychology, London, July 30. He organized and chaired a symposium on "Human Curiosity and Exploration" and gave a paper on "The Justifiability of the Concept of Curiosity Drive", on July 31. Dr. Berlyne also gave a talk on June 10 entitled "Positive and Negative Wirkungen des Konfliktes" at Psychologic

(See page 3, col. 1)

COMING EVENTS

OCTOBER (Continued from page 1)

School of Graduate Studies and Department of Political Economy. "Sovereignty and the Revival of Political Theory". Prof. W. J. Stankiewicz, Department of Political Science, University of British Columbia. Room 3050, Sidney Smith Hall, 4 p.m.

"Gadgetry or Growing?" — a novelist takes a personal look at the question of Form and Voice in novels. Margaret Laurence, U of T writer-in-residence. Concert Hall, Edward Johnson Building. 4.30 p.m.

Toronto Neurological Society. "Brain Scanning". Dr. T. W. Challis, Department of Radiology, Queen's University. Osler Hall, Academy of Medicine. 5-6 p.m.

Seminar

Department of Zoology. "Ecology of a MM² of Salt Marsh". Dr. John Lee, Department of Biology, City College of New York. Room 432, Ramsay Wright Zoological Laboratories. 4 p.m.

29 WEDNESDAY

Lectures

School of Graduate Studies and Department of Industrial Engineering. "Design and Implications of an Information System for a University". I. B. Turksen, University of Pittsburgh. Room 211, Electrical Building. 2 p.m.

Centre for Medieval Studies. "Chaucer's Marriage Group". Prof. Robert Kaske, Cornell University. Room 104, University College. 4 p.m.

School of Graduate Studies and Department of Astronomy. "Pulsars and Cosmic Rays". Dr. J. P. Ostriker, Princeton University. McLennan Physical Laboratories. 4 p.m.

Great Lakes Institute. The Great Lakes as a Resource. "Transportation". Lawson Kaake, Upper Lakes Shipping. Room 118, University College. 8 p.m.

Study

Graduate Christian Fellowship. "Micah 3 — Rulers, Prophets and Priests". Room 3290, Medical Sciences Building. 12 noon.

Tours

"Buddhist Art", noon; "French Salon", 1 p.m.; "Geology", 2 p.m. Meet in Main Rotunda, ROM.

Athletics

Rugger and Soccer. McMaster at Varsity. Back Campus. 3 p.m.

30 THURSDAY

Lectures

Faculty of Music Thursday Afternoon Series. "Computers and Music". Prof. Gustav Ciamaga, Concert Hall, Edward Johnson Building. 2 p.m. Admission free.

School of Graduate Studies and Department of Italian and Hispanic Languages and Literatures. "The Romantic Poison and the Silence of Verga". Prof. Gian-Paolo Biasin, Cornell University. Room 1086, Sidney Smith Hall. 3 p.m.

Archaeological Institute of America, Toronto Society. "Tropical Forest Cities of the Maya". Prof. R. E. W. Adams. ROM. 4.30 p.m. Free. (Formerly announced for Oct. 16)

School of Graduate Studies and Department of Near Eastern Studies. "Athrahat and Judaism". Jacob Neusner, Professor of Religious Studies, Brown University. Room 104-105, University College. 4.10 p.m.

"Furniture". Curator D. B. Webster, Sigmund Samuel Canadiana Building. 8.30 p.m. Admission \$1.50. ROM members free.

Seminars

Centre for Medieval Studies. "Dante's Purgatorio XXXII and XXXIII: A Survey of Christian History". Prof. Robert Kaske. Room 158, Lash Miller Building. 2 p.m.

School of Graduate Studies and Department of Chemical Engineering and Applied Chemistry. "The Aqueous Industrial Pollution Control Program in Ontario". D. P. Caplice, Ontario Water Resources Commission, Toronto. Room 2034, Wallberg Building. 3.30 p.m.

School of Graduate Studies and Department of Near Eastern Studies. "Problems in Babylonian Jewish History". Prof. Jacob Neusner. Senior Common Room, Sir Daniel Wilson Residence. 8 p.m.

Erindale Series: The Moon and Meteorites. "How an Astronomer Looks at The Moon". Prof. D. A. MacRae. Room 292, Erindale College. 8.15 p.m.

31 FRIDAY

Lectures

Graduate Program in Comparative Literature. "Geneva or Paris: The Later Criticism of Georges Poulet". Prof. J. Hillis Miller, Johns Hopkins University. West Hall, U.C. 4.30 p.m.

Department of Political Economy. "The Economic Development of Byzantium as Compared with that of the West". Prof. Robert S. Lopez, Director of Medieval Studies, Yale University. Room 1016, New College. 10 to 11 a.m.

NOVEMBER

1 SATURDAY

Athletics

Football. Queen's at Varsity. Varsity Stadium. 2 p.m.

2 SUNDAY

Concert

University of Toronto Choir. Lloyd Bradshaw, conductor. Scarborough College. 3.45 p.m. Admission free.

Music

Faculty of Music. Orford String Quartet. Concert Hall, Edward Johnson Building. 8.30 p.m. Admission free.

3 MONDAY

Lecture

Centre for Medieval Studies. "Paradiso 22-27: Dante's Final Threshold". Prof. Aldo S. Bernardo, State University of New York, Binghamton. Room 104, U.C. 4 p.m.

Ph.D. Orals

All members of the Graduate Faculty have the right to attend Ph.D. Oral Examinations.

Monday, October 27

Gerald Andrew Noonan, Department of English. "Idea and Technique in the Novels of Aldous Huxley". Thesis supervisor: Prof. D. J. Dooley. Room 207, 65 St. George St. 10 a.m.

Ottmar Hegyi, Department of Italian and Hispanic Studies. "The Study of an Aljamiada Text". Thesis supervisor: Prof. J. Gulsoy. Room 207, 65 St. George St. 2 p.m.

Wednesday, October 29

A. Matin, Department of Philosophy. "The Correspondence Theory of Truth". Thesis supervisor: Prof. J. W. Crichton. Room 617, 215 Huron Street. 4 p.m. (Please note that this examination was originally scheduled for October 22.)

Thursday, October 30

Miss Isolde D. V. Koenig, Department of Psychology. "The Reinforcement Value of Intracranial Stimulation and its Interaction with Arousal Level". Thesis supervisor: Prof. D. E. Berlyne. Room 617, 215 Huron Street. 10 a.m.

Why 100% Staff participation is United Appeal target this year

University of Toronto staff canvassers, 600 of them, have been hard at work for a week now, calling upon their colleagues to "give big" for a "big need" in a "big city" that must be met by the United Appeal.

As important as the generosity of the gift to United Appeal is total participation by members of the staff. The goal is the achievement of 100 per cent. involvement, with every staff man and woman urged to give, as generously as possible—but, regardless of size—to give that those in need may be helped.

Some say, "Let government do it". From tax money? How much more tax money than the steadily increasing burdens on pay envelopes now?

There is a sort of partnership of government and private agencies in welfare and social service. For instance, many of the 75 social-welfare agencies supported by the United Appeal receive some funds from government. Others do not.

The patterns which government lays down leaves a vast fringe area into which countless cases fall short of the needs. For instance, how big a bureaucracy would be needed to counsel husbands and wives whose marriages are tottering, or operate a program to prevent youngsters from becoming wayward, confused delinquents, or a rehabilitation centre for victims of strokes who can be restored to an interest in life?

To do these things, our dollars become hundreds of dollars. The 75 agencies supported by the Appeal enrol more than 39,000 volunteers to do a vast part of the work.

Here is how that occurs, in a few examples: There are six nursery schools for mentally retarded children in Toronto. The government provides a specially-trained teacher. But there must be trained assistants for these children, one guidance aid for every two youngsters. It would cost, at a minimum, \$20,000 per school for these aids. But volunteers take a course to learn their task, accept a day or two of work a week, and it costs nothing.

The Society for Crippled Civilians received \$77,900 from the United Appeal in 1968. In its workshop it employs about 450 crippled men and women all year round, pays out \$940,000 in wages, keeps those crippled people off welfare tax money. The little sum from UA underwrites the operation.

Cost of care in a nursing home is about \$2,400 a year. At the Second Mile Club and its branches, 1,500 aged people, more than 75 per cent of them trying to live on the government pension of \$109.85 a month, meet. They study crafts, prepare their own lunches, make useful things that sold last year for \$4,963. They find a love for life instead of wandering, lonely lives. Doctors estimate that all would wind up in nursing homes months or years earlier without this interest—at government cost for 75 per cent of them, the old age pensioners. Yet the club keeps hundreds out of nursing homes at a total United Appeal cost of \$45,470 a year.

Some services are more costly, such as day care centres for children, mental health clinics, refuges for girls on parole or probation. But all do this same task.

Sociologists sponsor workshop on social sciences/public affairs

Social scientists have become increasingly concerned, not only with studying society, but also with influencing it. This growing interest has taken many forms, but two have become paramount. On the one hand, a number of social scientists have become *social engineers*, intervening directly in social systems in order to make them more responsive to the achievement of some desired goal. On the other hand, a number of social scientists have become *social philosophers*, commenting on the adequacy of existing and proposed social systems in relationship to a desired set of values. In both endeavors there has been an engagement by the social scientist with the problems of an ongoing society and his recommendations have been noted—if not always heeded—by governments and large-scale social institutions.

It is with these thoughts in mind that the Graduate Department of Sociology is sponsoring a two-day workshop, on Oct. 31 and Nov. 1, on the relevance of the social sciences to public affairs. Anyone interested in this subject is welcome to attend.

In addition to members of the department, Prof. Amitai Etzioni of Columbia University and John R. Seeley, formerly of the Center for the Study of Democratic Institutions, will be active participants. Each of these two men has, in his own way, been actively grappling with the question of what form participation in the humane society should take.

In one of his most recent books, *The Active Society*, Etzioni seeks to delineate the structural mechanisms by which a society may be responsive to the needs and demands of its changing membership through an intensive and perpetual process of self-transformation. He is concerned in his work with the nature of social mobilization, with ways in which meaningful consensus on issues may be obtained, and with the ways in which "unresponsive" societies may be transformed. Etzioni, who has been deeply concerned with the nature of complex organizations in his earlier works, is now interested in utilizing his intellectual background to propose communication and control structures which would in systematic ways encourage the participation of citizens and help to make

the command centres of societies more closely articulated with the constituent groups in each society.

John Seeley, too, is concerned with the nature of society and the role of social scientists within it. His perspective is much different from that of Etzioni, however. In his most recent book, *The Americanization of the Unconscious*, Seeley comments upon the ways in which social scientists view and act upon man. He asserts that sociologists—and all social scientists—must accept social responsibility and involvement, for in the very process of defining issues for themselves they influence and change society through the impact of their ideas on the public consciousness. Seeley suggests that responsible behaviour demands that social scientists recognize the inevitable relationship between what they are doing and the nature of society. He urges the conscious coordinated dedication by social scientists to this goal using their techniques and knowledge to help to create a new and better society.

John Seeley has been in Toronto for much of his career. He was director of the project which produced *Crestwood Heights*, a study of the nature of life in the Forest Hill section of Toronto in the post-World War II period. Later, he served as research director of the Alcoholism and Drug Addiction Research Foundation and was a founding member of York University. He has been Professor of Sociology at Brandeis University. Until recently, he has served as Dean of Faculty of the Center for the Study of Democratic Institutions in Santa Barbara, Calif.

Mr. Seeley will give a major address on the theme of the workshop from 11 a.m. to noon, on Oct. 31 in Cody Hall. Prof. Etzioni will speak from 1.30 to 2.30 p.m. in the Clarke Institute auditorium. Then for an hour there will be a panel discussion between speakers and audience. From 3.45 to 5 p.m. there will be seminars—rooms to be announced at the sessions.

On Saturday from 10 a.m. until noon seminars involving the same participants and also including Prof. Florestan Fernandes, this year our Latin-American Professor-in-Residence, will be held.

SGS provides budget assistance for Ph.D. theses preparation

Summary of minutes of the Council, School of Graduate Studies, Sept. 16:
In the absence of Dr. Bissell, the meeting was chaired by Dean Sirluck.

Minutes

Council approved the minutes of the meeting of June 17, 1969.

Calendar Material

It was confirmed that the deadline date for submission of material for inclusion in the SGS Calendar was December 15.

Dean's Report

i. Council considered three gatherings of Graduate School statistics:

a. *Enrolment*: An analysis of SGS enrolment as at May 31, 1969, showed a total of 5190, of which 3516, or 67.7%, were Canadian citizens. Of the remainder, landed immigrants accounted for 16.0%, US 5.3%, UK 1.8%, Europe 0.9%, Asia 5.4%, Africa 1.1%, and others 1.9%.

b. *Applications*: 7895 applications had been received to September 10, 1969, compared to a total of 6817 for the previous year. 3813 (48%) were Canadian citizens or landed immigrants, 1288 (16%) from the US, and others totalled 2794 (35%).

c. *Offers of Admission*: 3775 offers of admission had been made, compared to 3319 last year. 2237 (59%) had gone to Canadians and landed immigrants, 625 (17%) to the US, and 913 (24%) to others. Divisions I, II (excluding Educational Theory), III, and IV showed increases of 6%, 22%, 10%, and 30% respectively. These figures reflected the planned increase in enrolment, the success of which would be determined when final registration figures were available.

ii. *Assistance with Costs of Preparation of Ph.D. Theses*: Provision has been made within the existing Graduate School budget for up to \$20,000 to assist with the costs of preparation of Ph.D. theses (excluding Educational Theory). Graduate student councillors and assessors, with Mr. Vaughan speaking for the GSU, agreed to Dean Sirluck's request that they advise him on suitable procedure.

iii. *Committee on Grading System*: A decanal committee consisting of Profs. Dignam, Kalow, and Sparshott and Messrs. Holden and Wein, under the chairmanship of Associate Dean Dupré, has been set up to consider the grading system of the School of Graduate Studies in relation to the systems in use in the various faculties and schools contributing to graduate work within the University, and, taking into account systems used elsewhere, to recommend any changes which seem desirable.

iv. *Review of the Phil.M. Program*: Dean Sirluck reported that there would be a review of the Phil.M. program to ascertain its success. Preliminary discussions with departments offering the program had been carried out by Associate Dean Parker, who would chair the decanal committee to conduct the review.

v. *CUA Rejection of OCGS/CPUO Proposal*: Dean Sirluck reported the Committee on University Affairs' rejection of the OCGS/CPUO proposal concerning use of formula income for

graduate student support. This meant that the SGS Committee on Graduate Student Support would have to drop this prospect from its calculations. It was agreed that this Committee also be asked to investigate and make recommendations concerning rates of pay for teaching assistance in this University.

vi. *Change of Convocation Date*: It was reported that the date of the Fall Graduate Convocation had been changed from Nov. 20 to Dec. 5.

vii. *Ontario Graduate Fellowships*: The present number of awards was slightly below quota (humanities—22, sciences—7, mathematics and science—4). Final figures were expected to come close to quota.

viii. *NRC Policy Change re Student Support*: The National Research Council has announced a change in its operating grants program, requiring first-time holders of graduate student assistantships, from September 1970, to be Canadian citizens or landed immigrants. Graduate students previously in receipt of such grants will not be affected.

ix. *Canada Council Procedure*: The new application forms for Canada Council doctoral fellowships require for applicants from Canadian universities the counter-signature of the Graduate Dean, if the applicant is a student, or of the Department Head if the applicant is a staff member. In this way, the university can keep a record of all applications, and with departmental recommendations, advise the Canada Council of the comparative merits of applicants by discipline.

Schedule of Meetings, 1969-70

Council approved the continuation of the existing schedule of meetings, i.e., the third Tuesday of each month, September through June, at 4 p.m. in the Council Chamber of the Galbraith Building.

SGS Senate Representation

Council appointed the following representatives to Senate: Associate Dean Dupré to replace Associate Dean Eastman, alternate Prof. Pratt; Associate Dean Parker to replace Associate Dean Graham; Mr. Brosky to replace Prof. Rose, alternate Mr. Brigg.

Visiting Students

The OCGS proposal recommending initial policies and procedures to enable students registered in one university to take graduate courses in another university has been approved by CPUO and recommended to the universities for individual implementation. With this approval, and on the basis of earlier expression of Council's support of the proposal, guidelines for its implementation at this University had been prepared and were brought for discussion.

Council recommended for Senate approval participation of the School of Graduate Studies in the co-operative program authorized by CPUO, and the adoption of the initial proposals concerning conditions and machinery for the implementation of the program. It was recommended that these guidelines be reviewed after a trial period of operation.

There was no other business.

Sciences, Prague, PROFS. LOUBSER and EFFRAT of the Ontario Institute for Studies in Education, and PROF. LIDZ of the University of Chicago.

PROF. N. W. BELL has been awarded a renewal of his Canada Council Grant to study family illness patterns. He participated, by invitation, in the workshop on Methodological Issues in Research with Groups at High Risk for the Development of Schizophrenia, held in Washington, June 12-13, and delivered "The Troubled Family in the Troubled Society", keynote address to the Conference on the Troubled Child, held in Toronto in November. He attended the Don D. Jackson Memorial Conference on Family Therapy, in Asilomar, Calif., last February, and spoke on "Mental Health in the Changing Community" to the annual meeting of the Bradley Home for Disturbed Boys, in Flint, Mich., in January.

PROF. R. BRETON (with JOHN McDONALD) gave a paper on "Social Class and Nuclear Family Relationships in Canada" to the Canadian Sociology and Anthropology Association on June 7.

PROF. S. D. CLARK, who resigned as chairman of the Department of Sociology, was elected president of the Humanities and Social Sciences Section of the Royal Society of Canada at its meeting in Ottawa, June 1-4. On March 7 he delivered a paper on "Rural Migration and the Changing Pattern of Urban Development" to the University of Victoria.

PROF. I. D. CURRIE has been awarded a Canada Council Fellowship, and granted partial leave of absence from the Department during 1969-70 in order that he may complete his study of leisure styles.

PROF. E. B. HARVEY is preparing a text on industrial sociology for the Dorsey Press. He has been elected a member-at-large of the Executive Committee of the Canadian Sociology and Anthropology Association, and delivered, with R. MILLS, a paper on "Patterns of Organizational Adaptation: A

Political Perspective" at Vanderbilt University, Nashville, Tenn., in March.

PROF. R. L. JAMES served as special lecturer on the Sociology of the Family in the University of Western Ontario's summer program for public school teachers of home economics, and delivered the introductory address at the North York Home and School Conference on the changing community, held in October, 1968.

PROF. M. KELNER presented a paper on "Ethnic Penetration into Toronto's Elite Structure" to the Canadian Sociology and Anthropology Association in Toronto on June 6.

Applied Science and Engineering

PROF. P. P. BIRINGER was program chairman at the Workshop on Applied Magnetism in Washington on May 22 and 23. He also chaired the session on Power Conversion and presented a paper co-authored by members of the Electrical Engineering Department entitled "Series Inverter without Gate Control".

PROF. GEORGE SINCLAIR was invited to be chairman of the session on Holography at the Coherent Optics Symposium held at Oakland University, Rochester, Mich., April 17-18. He attended the U.R.S.I. Spring Meeting, April 22-24, in Washington, as co-author of one of the papers, and also attended a meeting of the IEEE Awards Review Committee, of which he is the chairman, in New York on April 24.

PROF. W. JANISCHESKY participated in the III Power System Computation Conference held in Rome, June 22-27. At the working session on Surges he presented his contribution entitled "Computation of Surge Propagation along Transmission Lines in Presence of Corona". On the way to Rome he visited the Electrical Engineering departments of the University of Liverpool and the Eidgenössische Technische Hochschule (See page 4, col. 1)

CUG Report under discussion

(Continued from page 1)

change. The factors making for change exist everywhere. Some of these factors are: the rapid growth in the size of universities; the increasing self-consciousness of groups within the university community, particularly of students and staff, and the expression of this self-consciousness in militant organizations; the distrust of any authority that is not persuasively established; the insistence that the rights and responsibilities of student and staff citizenship should be fully recognized; the growing strength of the university as a source of knowledge and critical analysis, and the belief that this strength should be directed for the good of society; the lowering of economic barriers for university entrance, and the conviction that substantial remaining barriers should be eliminated. Any one of these factors has implications for the governance of universities; taken together they are an overwhelming warrant for change.

"The University of Toronto has a structure of government that was fashioned in another day for other times. The University has been able to make this government work by the exercise of good sense, goodwill and tolerance, and by ignoring some of its anomalies. At the same time the University community has generated a body of critical ideas on university governance. The time is, therefore, appropriate for changes based on an evident need and on a body of available thought. The very concern of this University for the past, its deep sense of tradition, and its abhorrence of violence make it possible for what may appear to be a radical critique to be applied dispassionately.

"It has become obvious that there is no clear unanimity even among those who are critical of the present system, and this Commission did not set out to apply a group of dogmatic, simplistic ideas. The problem was to find reconciliation between many critical approaches. The conclusions of the Report represent such a reconciliation. They constitute a series of proposals that in the opinion of the commissioners will enable this University to consolidate and use all its resources much more successfully than it has ever done before.

"The Report is not concerned with judging the past, nor with criticizing existing bodies. It grows out of a sense of pride in the University of Toronto and

a determination to maintain its leadership. The Commission has always looked forward; it has been concerned not to justify, or attack what exists, but to determine what should exist. The commissioners realize that many of their recommendations will be refined by analysis and by discussion, and that in this process some will be modified and some will disappear. They hope, however, that they have understood and described the spirit of the University of today and tomorrow."

The Hon. William G. Davis, Minister of University Affairs, said in a statement that he hoped that the report would be widely studied and discussed. "Once the dialogue is complete", Mr. Davis said, "careful consideration can be given to any changes to the University Act that may be required."

The text of his comment follows:

"Copies of the Report of the Commission on University Government at the University of Toronto have been forwarded to my office and the document will be reviewed carefully by members of the Government and officials of the Department of University Affairs. The Commission members have given much time and thought to the question of the form of government that should exist within the University in future years and because of the considerable interest which exists in such matters, not only in Toronto but on all our university campuses, their recommendations will require serious attention.

"It is my understanding that the report will be widely circulated within the University community and that all who are interested in the institution and its future—the Board of Governors, faculty, administrative and technical staffs, student body, alumni and the citizenry at large—will have an opportunity to study its contents and offer their reactions to the proposals which it contains. The outcome of the many necessary discussions that will take place will, it is hoped, lead to some consensus within the University, and without, as to the type of internal organization that will serve the needs of the institution in the 1970's and 80's.

"The Government, will, therefore, look forward to receiving the final recommendations from the University once the dialogue is complete and at that time careful consideration can be given to any changes to the University Act that may be required."

STAFF NOTES

(Continued from page 1)

Institut, University of Würzburg, West Germany.

PROF. R. F. BADGLEY presented a paper on "Comparative Medical Education" to the annual meeting of the American Sociological Association in Boston, Aug. 29. He has been appointed a member of the International Medical Sociology Committee of the Medical Sociology Council, Medical Sociology Section, American Sociological Association; of the Social Security Administration-Welfare Administration's Research Review Committee, Washington; of the Training Review Committee, National Institute of Child Health and Human Development, Department of Health, Education and Welfare, Washington, and of the Sub-Committee, Ontario Mental Health Foundation. He has been awarded (with PROF. M. KELNER), a grant by the Depart-

ment of Health of the Province of Ontario to carry out a two-year research project designed to develop a composite picture of the social characteristics of Toronto's "hippie" population, with special emphasis on their health patterns and needs.

PROF. R. C. BAUM presented a paper on "Modes of Complexity Reduction in Modern Society" to the Sociological Institute of the Czechoslovak Academy of Sciences in June, and participated in the German Politics Conference on "The West German Polity, 1969" in Cologne, West Germany, June 27-28. He has also been awarded a Canada Council Post-Doctoral Fellowship, and a Canada Council Research Grant for a project, entitled "On the Concept of Group Interest in the Theories of Karl Marx and Talcott Parsons", which he is conducting in co-operation with the Sociological Institute of the Czechoslovak Academy of

STAFF NOTES

(Continued from page 3)

schule in Zurich and held discussions with faculty members of the Queen Mary College and the Imperial College of the University of London.

DR. BEN BERNHOLTZ attended the Institute of Management Sciences 17th International Conference in New York, March 26-28, and the American Institute of Industrial Engineers in Houston, May 14-16. He also took part in the 2nd annual conference of Heads of Engineering Departments of Canadian Universities in Ottawa, May 26-27. Dr. Bernholtz also participated in Production Conference 1969 at the U. of T., June 3-5. On June 4, he presided over the session entitled "New Developments in Production Planning and Inventory Control" and on June 5 he was a member of a panel dealing with "The Role of the Universities in Production".

PROF. PATRICK J. FOLEY presented a paper on "Human Information Processing and Industrial Safety" at the annual meeting of the Canadian Human Factors Association, in June. Also in June he was elected Director of the Canadian Human Factors Association.

PROF. R. W. P. ANDERSON took part in a panel discussion on "Education for O. R." at the annual conference of the Canadian Operational Research Society in Montreal, June 2 to 4.

PROF. M. J. M. POSNER attended the joint conference of the Operations Research Societies of America and Israel held in Tel Aviv, July 1 to 4.

PROF. P. S. SHEN attended the Cryogenic Engineering Conference June 16-18 at Los Angeles. He presented a joint paper "Pressure Drop of Two-Phase Flow in a Pipe Line with Longitudinal Variations in Heat Flux" at the seminar.

DR. F. P. J. RIMROTT paid a visit to the DFVLR (Deutsche Forschungs- und Versuchsanstalt für Luft- und Raumfahrt) in Braunschweig and delivered a series of three lectures on "Satellite Mechanics" at the Mechanikzentrum of the T.U. Braunschweig, July 14 to 17. He also participated in a seminar on "Systems Theory and Mechanics" at the Mathematisches Forschungsinstitut Oberwolfach in the Black Forest, Aug. 11 to 15.

Pharmacy

PROF. G. R. PATERSON at the annual meeting of the American Institute of the History of Pharmacy in Montreal on May 19 presented a paper on "The Niagara Apothecary at the Sign of the Golden Mortar-Problems of Restoration".

PROF. J. G. NAIRN attended the symposium on the "Physiological Equivalence of Drug Dosage Forms" in Ottawa, June 26-27.

PROFS. ISABEL STAUFFER and ERNST W. STIEB participated in a panel discussion June 17 at the Kitchener-Waterloo Hospital. Sponsored by the Canadian Society of Hospital Pharmacists, Ontario Branch, the discussion centered about an evaluation of a pilot course in "Clinical Pharmacy" conducted during the academic year 1968-69 at the Toronto General Hospital in conjunction with the Faculty of Pharmacy, U. of T. Prof. Stauffer is the evaluator of the course; Prof. Stieb participated as a member of the Faculty's Curriculum Committee.

DR. STIEB also participated in the invitational historical symposium, "Four American Pharmacists", held by the American Institute of the History of Pharmacy at the Osler Library, McGill University, during its annual meeting in Montreal, May 17-24. Dr. Stieb discussed the many faceted career of "Edward Buckingham Shuttleworth (1842-1934)" who was the first head of the teaching faculty of the Ontario College of Pharmacy, a member of the teaching faculties of the Trinity Medical College, the Medical Faculty of the University of Victoria College, and the Ontario Medical College for Women, as well as first bacteriologist of the Toronto City Medical Health Department. Dr. Stieb also presented a paper, "With Tongue in Cheek: A Quantitative Approach to Pharmaceutical Symbolism", to the section on Contributed Papers of the Institute at the same meeting; participated in the Institute's Workshop on Local History; and took part in the meeting of the Institute Council, as the first Canadian (first non-American) ever to serve in that capacity, an elected office.

Social Work

DR. JOHN M. GANDY was appointed to the Editorial Advisory Panel of the *Journal of Education for Social Work*, and to the Commission on Educational Research, Council on Social Work Education, New York.

DR. E. S. L. GOVAN was a member of the panel on "Ways of Influencing Public Social Policy" at the annual conference of the Ontario Welfare Council, May 14.

PROF. WINIFRED HERINGTON was appointed July 2 to the Sub-Committee on Rehabilitation Services, Ontario Council of Health (the senior advisory body on health matters to the Minister of Health and the Government of Ontario).

NATHAN MARKUS was discussant at the annual conference of Chief Social Workers, Mental Health Division of the Ontario Department of Health, May 1; also lecturer and discussion leader at the Regional Management Development Seminar for Social Welfare Executives, Banff, May 19-23.

DR. B. Z. SHAPIRO during June was in Israel conducting a research study on a research grant from the Canada Council, and gave an informal presentation to staff members of the Schools of Social Work of Tel Aviv and Bar Kan Universities on "Research Related to Helping Roles in Social Welfare".

Hygiene

DR. R. J. SHEPARD attended the Federation of American Societies of Experimental Biology, April 13 to 18, where he presented a paper entitled "Predictions of Maximum Oxygen Intake by Conductance Equations". He was also a guest speaker at the 12th annual Physicians Post-Graduate Symposium on Heart Disease of the American College of Cardiology in San Francisco, April 19 and 20. He spoke on "Exercise Testing" and gave a practical demonstration of test procedures. During the period May 1-3, he attended the American College of Sports Medicine Meeting in Atlanta, Georgia, presenting papers on "Factors affecting Body Density and the Thickness of Subcutaneous Fat" and "Exercise Cardiac Output of 10-13 Year Old Children". On May 4 he was guest speaker at the Ontario Society of Physiotherapy, speaking on "Physiology of Exercise as Related to Physical Conditioning". During the period May 6-8, Dr. Shepard acted as consultant to the American Heart Association National Workshop on "Exercise in the Prevention, Evaluation and Treatment of Heart Disease". This meeting was held in Myrtle Beach, South Carolina. He also attended the recent meeting of the Canadian Medical Association in Toronto, and presented a paper entitled "Assessment of a Lower Extremity Training Program" in collaboration with DR. T. FRIED.

PROF. EUGENIE STUART returned to the School of Hygiene in July, after spending ten months on the directing and tutorial staff of the King's Fund College of Hospital Management, London, England.

While in London Prof. Stuart gave assistance with the two-year National Training program for hospital administrators, which is conducted at three centres in England. She acted jointly as director, lecturer and co-ordinator for short interdisciplinary courses in management appreciation and techniques including those designed exclusively for medical personnel. During the year, Prof. Stuart also gave lectures and conducted conferences at other universities in England and in Scotland, Ireland, Belgium and Holland. She participated in the International Hospital Federation Congress meeting in Dusseldorf, Germany.

Aerospace Studies

DR. H. S. RIBNER has been appointed to the Committee on Noise of the Acoustical Society of America. May 20 to 22 Dr. Ribner attended the Second Canadian Congress of Applied Mechanics, in Waterloo. Two of his students, T. E. SIDDON and L. T. FILOTAS, presented papers. Dr. Ribner presented a general lecture on "Noise" to the ASME Joint Applied Mechanics and Fluids Engineering Conference, Northwestern University, Evanston, Ill., June 18. He was chairman of a panel discussion on "Industry's and Government's Needs in Acoustics and the Required Educational Programs" at the American Society for Engineering Education's 77th annual Meeting, Pennsylvania State University, June 24. He attended a NASA presentation of the Lewis Laboratory research program on aircraft engine noise alleviation as consultant to the U.S. National Academy of Sciences Subcommittee on Aircraft Noise Research, Cleveland, July 9.

DR. RIBNER, DR. T. E. SIDDON and L. T. FILOTAS represented Canada at the NASA Basic Noise Research Conference, Washington, July 14-15. Dr. Ribner spoke on "Direct Correlation of Fluctuating Lift with Radiated Sound for an Airfoil in Turbulent Flow" (co-authored by P. J. F. CLARK) and on "Eddy Mach Wave Noise from a Supersonic Mixing Layer". Dr. Sidдон spoke on "Investigation of Pressure Probe Response in Unsteady Flow" and Mr. Filotas gave a paper on "Response of a Wing to an Oblique Sinusoidal Gust: A Generalization of Sears' Problem". Dr. Ribner addressed and chaired the closing session panel and floor discussion on the

status and problem areas of aerodynamic noise research.

COL. W. MORAN, Vice Commander, ARL, Dayton, Ohio, E. G. JOHNSON, director, Fluid Dynamics Facilities Research Laboratory, ARL, and K. Stetson, ARL, visited UTIAS in order to discuss current hypervelocity research investigations.

DR. P. C. HUGHES and MR. S. C. GARG attended the CANCAM 69 Conference where they presented a paper entitled "On the Use of Strings and Wires in Gravity-Gradient Stabilization Systems: Orbital Plane Analysis". On May 28 Dr. Hughes and Mr. D. B. Cherchas discussed research goals relating to Canada's domestic communication satellite with the staff of the Communications Research Centre in Ottawa.

The Canadian Meteorological Society toured the Institute for Aerospace Studies on the evening of April 29. Dr. S. J. TOWNSEND gave an introductory talk. Dr. Townsend attended the 1969 annual conference of the Canadian Nuclear Association in Montreal June 8-11.

Computer Science

PROF. I. BABUSKA of the University of Prague delivered a colloquium to the Department on June 2, entitled "Finite Element Methods in the Numerical Solution of Partial Differential Equations".

PROF. C. C. GOTLIEB delivered an address, "Computers and Society", to the Royal Society of Canada at its annual meeting in Ottawa June 1-4. Dr. Gotlieb also took part, as the representative of the Association for Computing Machinery, in the panel discussion on "Publication" at the SLA (Special Libraries Association) Conference in Montreal, June 3. He also participated in the Gordon Conference on Information Processing held in New London, N.H., July 14-18, as an invited speaker. In his address he gave a report on IFIP (International Federation for Information Processing).

PROF. WILLIAM KAHAN delivered a colloquium at the University of California, Berkeley, on May 29 entitled "The Rotation of an Hermitian Operator's Invariant Subspaces by a Perturbation" (joint work with PROF. CHANDLER DAVIS).

Connaught Medical Research Laboratories

DR. A. M. FISHER attended the annual meeting of the National Board, Canadian Diabetic Association, in Toronto, June 6, and spoke on "Insulin - Some Recent Developments".

DR. S. WILSON gave a paper entitled "Comparison of Nutria and Guinea Pig Antibodies to Bovine Insulin", at the 12th annual meeting of the Canadian Federation of Biological Societies, in Edmonton, June 11-13. Also Mrs. L. LOGAN gave a paper entitled "Preparation of Relatively Specific Antilymphocyte Sera".

E. K. TARCZY attended the Nova Scotia Pharmaceutical Convention at Ingonish, N.S. June 24, and spoke on "Insulin - Some Recent Developments".

DR. J. G. BLACK attended a meeting of the Royal Botanical Gardens Association, Hamilton, April 21, and spoke on "The Pathogenic Effects of Rabies in Animals and Attempts to Find a Means of Protecting Our Wild Life".

Russian and East European Studies

PROF. H. GORDON SKILLING travelled in Europe for three months, under his Killam award, spending six weeks in Czechoslovakia, and three weeks in Yugoslavia, with visits to England and Denmark. He gave a seminar at the Institute of Political Science, Bratislava, Czechoslovakia, on "Group Conflict in Communist States", April 17. On May 31 he gave a lecture to the British Universities Research Conference on Eastern Europe, in England, on "Czechoslovakia and Group Conflict under Communism".

EXHIBITIONS

Recent works by Helen Gregor, A.R.C.A. (London) and David Chanel, A.O.C., will be on display in Alumni Hall, Victoria College, until Oct. 27. From 9 a.m. to 5 p.m., Monday to Friday. Tea.

"Ships and the Sea". Early Canadian paintings and prints from 1750. Sigmund Samuel Canadiana Building.

"Stamps of Jaipur, India". On view in lower rotunda, ROM. To Nov. 16.

"Animal Behaviour". Photos and live specimens. Third floor rotunda, ROM. To Nov. 9.

"Art for Architecture: Walls", circulated by the Art Gallery of Ontario, at Scarborough College until Oct. 26. Included are spectaculars specially created by 33 leading Canadian artists. Open to the public on weekdays, 9 a.m. to 10 p.m. and on weekends from noon to 6 p.m.

He gave a seminar at the Institute of Political Science, University of Aarhus, Aarhus, Denmark, on "Group Conflict in Communist States" June 3, and a lecture on the same day on "Reform and Reaction in Czechoslovakia". On June 16 he gave a lecture at the Institute of International Politics on "Reform and Reaction in Czechoslovakia". On June 30 he gave a lecture at the Political Science Association of Yugoslavia, Belgrade, on "Group Conflict in Communist States".

The Press

The following books have recently been published by the Press:

English Parish Clergy on the Eve of the Reformation by Peter Heath. \$6.50.

Browning's Voices in the Ring and the Book by Mary Rose Sullivan. \$7.50.

Canadian Books in Print/ Catalogue des livres canadiens en librairie 1968 edited by Gerald Simoneau. \$20.00.

Trade Liberalization and Transportation in International Trade by John M. Munro. \$4.50.

Trade Liberalization and the Canadian Steel Industry by Jacques Singer. \$4.00.

Alphabet Book by students of Kettle Point School, Kettle Point Indian Reserve, Ontario. \$1.25.

A Global Corporation: A History of the International Development of Massey-Ferguson Limited by Edward P. Neufeld. \$15.00.

John Strachan by J. L. H. Henderson. \$4.50.

Aspects of Music in Canada by Arnold M. Walter. \$8.50.

The Military Chaplaincy by Gordon C. Zahn. \$7.95.

Residential Water Demand and Economic Development by Terence R. Lee. \$5.00.

A History of Music in Canada by Helmut Kallman. \$2.75.

Natural Resources and Public Property Under the Canadian Constitution by Gerard V. LaForest. \$11.50.

Hawthorne as Myth-Maker by Hugo McPherson. \$6.50.

Constitutionalism and Nationalism in Lower Canada by Ramsay Cook. \$1.75.

Imperial Relations in the Age of Laurier by Carl Berger. \$1.50.

Minorities, Schools and Politics by Craig Brown. \$1.95.

Conscription 1917 by Carl Berger. \$1.50.

The Awful Revolution: The Decline of the Roman Empire in the West by F. W. Walbank. \$2.95.

The Narnie in the Medieval Romance Epic by Eugene Dorfman. \$7.50.

Sport and Society: Elizabeth to Anne by Denis Brailsford. \$7.50.

Nov 14, Dec 5 are dates

of 1969 fall convocations

At the first of two fall convocations, George Ignatieff, Canadian Ambassador to the United Nations, who graduated from Trinity College with a Rhodes Scholarship, will receive the honorary degree of Doctor of Laws. The convocation will be held on Friday, Nov. 14, at 8.15 p.m.

On Dec. 5, at 8.15 p.m., an honorary LL.D. will be conferred upon Prof. Bertie Wilkinson, who taught medieval history at U of T from 1938 until his retirement in 1967.

Holiday period announced

The President has announced that the University offices and the University Library will be closed from 5 p.m. on Tuesday, Dec. 23, 1969, to 8.45 a.m. on Monday, Dec. 29, 1969, and on Thursday and Friday, Jan. 1 and 2, 1970.

McLaughlin Planetarium. "The World of the Moon". New show in the Star Theatre featuring colour film and photographs taken by Apollo 11 astronauts. To Nov. 30. Tuesday to Friday, 3.30 and 8 p.m.; Saturday, 11 a.m., 2, 3.30, 5 and 8 p.m.; Sunday, 2, 3.30, 5 and 7.30 p.m. Adults \$1, students 50¢. Children under eight not admitted to the Star Theatre.

"Craft Dimensions Canada". The largest and most comprehensive exhibition of contemporary Canadian crafts yet assembled. Categories range from pottery to jewellery, textiles to metal work. Many items for sale. Exhibition Hall, ROM. To Nov. 2.

In Pursuit of Antiquity. Exhibition of Chinese painting spanning the 15th to 18th centuries. The key artist is the 17th century painter Wang Hui. Far Eastern Galleries, ROM. Until Oct. 26.
